TEN CENTS PER WEEK

## ELECTIONS HELD IN DOZEN STATES ON NEXT TUESDAY

In Five of Which Governors  
Will be Chosen, While Some  
Will Elect Senators and  
Cleveland and San Francisco  
Offer Hot Municipal Contests

### A LINE ON WHAT IS COMING

New York, Oct. 29.—There will be elections in twelve states on week from tomorrow. In Massachusetts, Rhode Island, Maryland, Mississippi and Kentucky a governor and other state officers are to be chosen; in New Jersey, a governor only; in New York, two associate justices of the court of appeals; in Pennsylvania, a state treasurer, and in Nebraska, a railroad commissioner and two regents of the state university. In Ohio, Utah and California, municipal officers are to be selected, while in New York county a number of judges and a sheriff are to be voted for.

The Prohibitionists have a state ticket in all the states except Maryland and Mississippi, and city tickets in Cleveland and Cincinnati, but not in San Francisco or Salt Lake.

The Social-Labor party has tickets in all the states except Mississippi and Maryland, and city tickets in Cincinnati, Cleveland and Salt Lake, but not in San Francisco.

The Social-Labor party has tickets in Kentucky and Massachusetts and New Jersey, while Union Labor made nominations for city officers in San Francisco.

There is only one ticket—the Democratic—in Mississippi and the result, of course, is not doubtful.

In Massachusetts there are ten tickets, five being divided among the Democrats, who are engaged in a factional fight with the state delegation to the national Democratic convention; ballot law commission decided that ballot is a commission decided that Henry M. Whitney was the nominee for governor.

In Nebraska the Democrats and Populists fused on the officials to be voted for throughout the state.

In Maryland there will be a straight contest between the Democrats and the Republicans, only the two parties having made nominations for state officers. In addition to these house of delegates and one-half of the state senate are to be elected. The next legislature will choose two United States senators—one to fill the unexpired term of the late Arthur T. Gorman, and the other to take the place of Senator Rayner. The Republicans adhere to the old plan of senatorial election, but the Democrats are to put into effect a new senatorial primary plan, which requires every member of the legislature to vote for the candidate receiving the highest vote in his district. The senatorial primaries, so far at least as the Democrats are concerned, will hereafter be a part of the regular elections in Maryland. Six aspirants for the long term will be voted for November 5, the candidate for the short term having no opposition.

The local elections, particularly in New York county, Cleveland, Cincinnati, Salt Lake and San Francisco are of particular interest this year. In New York county the Republicans and the Independence League (Hearst) forces have fused on the county ticket, which is made up of a number of court justices and a sheriff. This gives unusual interest to the contest although the Republicans named the head of the ticket, Mr. Lynn Bruce, for justice of the supreme court, the most important office that of sheriff went to the Independence League, whose nominee, Maximilian F. Ihnsen, has been vice-chairman of Hearst's campaign manager in several campaigns. Of the ten judges nominated the Republicans named five and the Independence League the others. Opposed to Ihnsen on the Democratic ticket is Thomas F. Foley, Democratic leader of the Second Assembly district and a well known figure in east side politics, while James W. Gerard heads the Democratic ticket for justice of the supreme court. Soon after the nominations were made, Mayor McClellan, who had been opposed to the present Tammany machine, announced that he would support the Democratic ticket against the Republican-Hearst combine.

In Cleveland, Congressman Theodore E. Burton is contesting the mayoralty with Thomas L. Johnson, who is understood to be the representative of William J. Bryan in Ohio and to endorse Bryan's views on the subjects of public utilities. There are four tickets in Salt Lake City, the American or anti-Mormon party having made nominations for local offices as have the Republicans.

## GOV. BRADLEY SUMMARIZES CHARGES AGAINST BECKHAM ADMINISTRATION OF STATE

### Refutes the Many Allegations and Disposes of Claims of Economy and Good Management

Louisville, Oct. 29.—Governor Bradley has repeatedly made certain specific charges against the administration of Governor Beckham. These charges have been uttered from the platform and printed in the newspapers, but they still remain unanswered.

On several occasions Governor Bradley has gone exhaustively into the criticism of Beckham's regime. He has now furnished a summary, which in brief and comprehensive form shows the graft and extravagance of Democratic misrule, and exposes the misrepresentations that have been made during the campaign by Democratic speakers. The summary follows:

Messrs. Beckham and Hager have been denouncing the statements of Governor Bradley concerning Democratic mismanagement in Kentucky as untrue.

On the night of October 19 Governor Bradley, at Louisville, made specific response, and in that response he proved by reference to books by pages the falsehoods of his adversaries, as follows:

First—Beckham's claim that the general assembly under Bradley was Republican is shown to have been untrue, as the house in 1896 and 1897 was Republican and the senate Democratic.

The statement by Mr. Beckham that the house of reform was not established at that session is untrue. It was then established. (See Acts 1896, page 55.) The messages of Governor Bradley of 1896 and 1897 both call attention to the necessity of the house of reform.

Second—Governor Bradley charges that in 1892 the general assembly refused to make an appropriation for the St. Louis exposition, which Governor Beckham has not since denied, and that but for the action of citizens of the state no exposition could have been had. He charges the same as to the Jamestown exposition.

Third—As to common schools, Governor Bradley charges that the

### PATROLMEN SHIFTED

A change of assignment of patrolmen was made last night and new faces were seen on beats this morning in several sections of the city. Patrolmen Jones and Dugan were assigned to the depot beat, day watch; Patrolmen Carter and Hessian were assigned to Kentucky avenue beat.

Patrolman Wood was assigned with Patrolman Rouse, to the night shift of the depot beat, while Patrolman Ferguson was given the Third street beat on the night shift.

### Inventory Of Gridiron Wounds Moves Lima College Football Team To Disband For Season

Lima, Oct. 29.—After taking an inventory of the injuries sustained by the Lima College football team, the captain today announced that the eleven was disbanded. As jotted down on the official records, the inventory looked like this:

Six broken noses, four broken legs, eight dislocated bones, twelve broken fingers.

It was a sad meeting of the football association. The members of the team, as they hobbled in on crutches or entered with their arms and heads bandaged, presented a rueful appearance.

When the captain looked down the line of his wounded heroes tears came into his eyes. He called the roll and as each name was pronounced the nearer answered: "Here; a broken leg;" or, "Here; three broken fingers;" and the secretary wrote down the list and blotted it with his tears. The list revealed that the team had broken all records for

Democrats and Socialists.

In San Francisco the Democrats and the Good Government forces have combined and nominated the present acting-mayor who is opposed by a Republican as well as a Union Labor candidate and the three-cornered fight is decidedly lively.

### DRY GOODS BOOM

Paducah retail dry goods merchants seem to be having an unprecedented good business this week and large amounts of merchandise are being sold daily. Besides the great demand from residents of the city for fall goods, an unusually large number of shoppers are coming from the surrounding counties in Kentucky and the boats are bringing in large numbers of people from southern Illinois towns.

### METROPOLIS WATER PLANT

Mr. Fred Schiffman, the Paducah plumber, has secured four contracts in Metropolis to drill four ten inch artesian wells, and is preparing to start the work. The wells will cost approximately \$1,000 each, and the work will require several weeks. Mr. Schiffman drilled wells for the city water plant at Brookport, and made such a success with the work that he was given an opportunity to bid on the Metropolis job.

## BLACK HAND KILLS MEMBER WHEN HE WEAKENS IN CRIME

Berlin, Oct. 29.—Editor Maximilian Harden, of Zukunft, was acquitted of the charge of libeling Gen. Count Von Molke. The count must pay the costs. Von Molke sobbed aloud, during the reading of the judgment. Outside on his way home he was pelted with dirt from the street. Friends had to protect him with swords from a hooting crowd crying: "Down with the moral leper."

Harden was received with cheers. The court said Harden was justified in attacks which exposed Von Molke to the people, in the charges of immorality and political intrigues made against the knights of the round table.

It is said the kaiser forced Von Molke to sue Harden to test the truth of the charges.

## POSSUM FEAST AT NO. 4.

### SON SUICIDES.

Ed James, colored, employed on the steamer Dick Fowler, has been notified of the suicide of his son, Leo James, in Keokuk, Iowa.

The body is in the hands of a Keokuk medical society and is being held pending orders from the family.

The girl named in the charge is Helen Von Hagen, whose age was given as 15.

Hitchcock's arrest today was said by Mr. Garvan to have been the outcome of the actor's examination on October 25 before Magistrate Finn. At that time the comedian appeared to push the case against Hugo C. Voercks, whom he accused of trying to blackmail him out of \$2,500. Hitchcock was put on the stand, where he admitted that he had taken Elsie Voercks, sister of the defendant, and Helen Von Hagen in an automobile to his home at Great Neck, L. I. He also testified that the Voercks girl and Helen Von Hagen had visited him at a house in West Forty-first street. He has firmly denied, however, that there ever was any wrongdoing on his part toward the two girls.

## YOUNG MAN HAS NEW THEORY

Human Life Seems Centered in Stomach.  
All Else is Secondary.

The immense success which has followed L. T. Cooper during the past year with his new preparation has exceeded anything of the kind ever before witnessed in most of the leading cities where the young man has introduced the medicine. Cooper has a novel theory. He believes that the human stomach is directly responsible for most disease. To quote his own words from an interview upon his arrival in an eastern city: "The average man or woman cannot be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature, such as cancer, tuberculosis, diabetes, etc., which are organic, and are not traceable to the stomach, but even fevers can, in nine cases out of ten, be traced to some thing taken into the stomach. All of this half sick, nervous exhaustion that is now so common, is caused by the stomachic conditions, and it is because my remedy will and does regulate the stomach that I am meeting with such success."

"To sum the matter up—a sound

digestive apparatus that is doing its full duty getting every particle of vitality out of all food by transferring it to the bowels in a perfectly digested state—this above all else brings health."

Mr. A. C. Brock, chef of the Brock Restaurant, Market District, Boston, Mass., who is a staunch believer in Mr. Cooper's theory and medicine, has this to say: "I had chronic indigestion for over three years. I suffered terribly, and lost about thirty pounds. I was a physical wreck when I started this Cooper medicine, a month or so ago. Today I am as well as I ever was in my life. I am no longer nervous, my food does not distress me in the least, and I have a splendid appetite. I am gaining flesh very rapidly—in fact, at the rate of a pound a day. I would not believe any medicine on earth could have done for me what this has done. It is a remarkable preparation and Mr. Cooper deserves all his success."

We recommend the Cooper preparations as being remarkable medicines. W. B. McPherson.

## INTERNATIONAL

SUNDAY SCHOOL RALLY WILL BE HELD IN LOUISVILLE.

Five Hundred Trained Teachers Will Hold Meetings in Streets of Kentucky City.

Bible class meetings by 500 trained Bible class teachers will be held upon the streets of Louisville next June during the convention of the International Sunday School Association. This was announced at the banquet and informal meeting of the local executive committee held at the Seelbach hotel.

At this meeting it was announced that W. C. Pearce, secretary of the adult department, purposes to bring the half thousand trained teachers to the city, they will be banqueted.

During the convention some time between the afternoon and the evening sessions.

Mr. Pearce, together with General Secretary Marion Lawrence, it was also announced, would be here for a week during February, at which time they would perfect plans for the international convention. An institute will be held at that time.

Letters were received from members of the executive committee which was here a short time ago, thanking the local committee for the courtesies extended to them.

The local committee is now at work endeavoring to ascertain how many will be present at the big meeting, and to secure lodgings for them. It is thought that no less than 2,500 delegates, and possibly many more, will be here. J. J. Telford, of the transportation committee, is busy arranging railroad rates. All told more than 5,000 visitors are expected in Louisville during the monster convention.—Louisville Evening Post

### "Jack Tar" Newspapers.

Several of the big ships in the United States navy have their own newspapers. On board the Kentucky is printed "The Kentucky Budget," a semi-monthly. The Louisiana is responsible for "The Pelican," which is issued monthly. The battleship Ohio has "The Buckeye." The West Virginia boasts of "The Ditty Box." "The Badger" is printed monthly on the Wisconsin.

All of the above papers are issued by the enlisted men of the ships. The aim of each is identical—to make life aboard the ship more agreeable, and to give the friends in civil life an outline of naval doings and of the brighter side of naval life.

The Americans are a newspaper-reading nation. Barred from his local papers by the refusal of the government to allow free postage on papers addressed to the navy, "Jack" promptly solaces himself by starting newspapers of his own on board ship. The men have a freedom of criticism in the little monthly papers that would lead one to think that military discipline is not all blood and iron. Many aly digs are rammed home at unpopular officers, and more frequent are the bouquets for those occupants of the ward room who are popular with the crew.—Washington Post.

### After Men "Higher Up."

Mattoon, Ill., Oct. 23.—Judge Peter S. Grosscup and Marshal E. S. Sampson, receivers of the Union Traction company of Chicago, together with seven other officers and directors of the Mattoon City Railway, will, it is believed, be indicted for manslaughter by the grand jury, which will be filed in court on Monday or Tuesday. True bills, which, it is understood, have been voted, are a result of the collision near Charleston in August of passenger and freight cars on the electric line in which fifteen persons were killed and fifty-two seriously injured.

### TENNESSEE IMPROVEMENT ASSOCIATION.

Many People of Valley Will Go to Knoxville Next Month to Work for Development.

The eleventh annual meeting of the Tennessee River Improvement Association is called to meet in Knoxville at 10 a. m. November 13 and a number of local rivermen intend to attend. In sending out the call for the session the executive committee says:

"It has been the good fortune of the association, by its persistent and constant work in the last eleven years to accomplish great good to all of the sections bordering on and close to the Tennessee river and its valleys, by the assistance of the government, to the work of improvement of the river, and that there is no question before the people of the valley more important than the improvement of the great waterway."

Many governors, senators and members of congress have signified their intention to attend the meeting, and all cities and counties are entitled to appoint delegates to the session.

Warner Again a Candidate. Detroit, Mich., Oct. 28.—Gov. Fred M. Warner today announced that he will be a candidate for a third term as governor of Michigan.

### For the Woman That's Fat.

A Detroit physician says that the cheapest and safest mixture a fat woman who wants to get thin can use is one-half ounce Marmola (get it in the original half-ounce package), one-half ounce Fluid Extract Cascara Aromatic and three and one-half ounces Syrup Simplex. The proper amount to take is a teaspoonful after meals and at bedtime.

These ingredients may be obtained from any druggist at small cost and make combination that is not only excellent as a fat reducer; being able, it is claimed, to take off a pound a day without causing wrinkles, but is also a splendid help to the system as a whole, regulating the stomach and bowels (where the fat person's troubles begin) and clearing the skin of pimples and blotches. No exercise is required to help the remedy in its work and, best of all, no dieting is necessary while taking it—you can eat what you like.

Co-operation of teachers are appreciated and invited. Present outlook leads us to believe that will not be far in the future before we realize the need of a branch library in certain districts of the city.

#### PEANUT EATER HAS A RIVAL: TOWNSMAN TOUTS HIS BEAN.

Aurora, Ill., Oct. 28.—To prove that Dr. T. J. Allen's pet food, the peanut, is not the most valuable nutriment, Edgar Brobst, aged 66, has begun a sixty day endurance test of beans. He says he intends to live until he is 100 years old and that he is convinced one continuous round of beans will insure his ambition.

In secret Mr. Brobst began his bean diet ten days ago, at the time Dr. Allen took to peanuts. He reports he has gained two pounds in weight, while the friend of the peanut is minus nine and one-half pounds.

While gaining in weight Brobst has gained the ill will of his wife and three children, who have fled to another neighborhood, determined not to return until Brobst gives up his bean habit.

Dr. Allen, the disciple of the peanut, believes Mr. Brobst will not thrive on beans. He sticks to the goobers and was in normal condition today.

#### Mark Twain's Story of His Life.

Mark Twain refuses to let his captivating autobiography be published in book form until after his death, but journalistic enterprise has come to the rescue, and we are to have Mark's masterpiece after all. He has consented to let it appear as a serial.

It has been secured at enormous cost by the Sunday magazine of the Chicago Record-Herald, which has a name for capturing big prizes of this sort, such as Conan Doyle's "Sir Nigel" and Kipling's "Sons of Martha."

Thus it falls out that the readers of the Sunday Record-Herald are to have a delightful treat without extra cost. For months to come Mark Twain will go on telling in his droll way about the famous people he has met, how he came to create Colonel Sellers and Tom Sawyer, and all the funny things that have happened to him. The whole is to be profusely illustrated. The first installment—in the issue of October 27—is accompanied by a magnificent portrait of the humorist. Everybody who likes Mark Twain will want to read this great biography.

#### Perry Is Odd Lunatic.

New York, Oct. 28.—Efforts which are being made by a few of his steadfast friends to have the sentence of Oliver Curtiss Perry commuted have revealed the fact that for four years the daring criminal, who in 1892 started the entire country with the boldness of his exploits, has not eaten a particle of food nor worn a stitch of outer clothing. They have also disclosed the fact that Perry is regarded as the most remarkable patient ever confined in the state hospital for criminal insane.

## TOM DIDN'T SAY SO.

Accused of blackmail! and by Tom Harrison, and in our own office! Oh, we are so glad it was the News-Democrat and not Tom, who said that!

Saturday evening The Sun very pertinently remarked concerning the policy of the News-Democrat:

"Now, just one word further. This kind of campaign has gone far enough. If it is not stopped, the light may be turned on Tom Harrison and his choicest intimates and political allies, and, as President Roosevelt puts it, the man, who turns on the light will not be responsible for what the light reveals. Let us be decent in this campaign. Remember, we all have to live together in Paducah after the election is over."

That is all we desired or demanded; but that blunt announcement, according to the News-Democrat, brought Mr. Harrison to our office, where he said in substance:

"Such an open insult as had been offered his personal character in the article published Saturday, he felt was simply and purely blackmail. He called attention to the fact that whatever statements the News-Democrat had made relative to any candidate had been openly, and in plain outspoken words, free of any insinuations or insults gilded with the veneer of piety. He further called upon The Sun to make public the facts relative to his public or private life, giving to it the liberty to speak openly, whatever it might feel inclined to say but such misleading insinuations he would not tolerate."

Now, all this stuff is in the editorial

columns of the News-Democrat, and that paper alone assumes responsibility for the statement of what is supposed to have taken place in the office of The Sun. Whether or not Mr. Harrison came to the office and had a conference with the general manager of The Sun, and what took place, if such a conference was held, is known to two people—Tom Harrison and the general manager of The Sun. Neither of them has spoken. If Mr. Harrison will, through our columns, or in a signed statement in the News-Democrat, say he inspired that editorial, that he gave the data on which to base the editorial, or say the statements in the editorial are true, we shall pursue this matter further. Otherwise, having accomplished what we set out to do, we shall not worry patient public with quibbling and innuendo.

After the election a new city attorney may find the Hugh Boyle case on his hands. Still, if it doesn't bother him any more—

You may register today and tomorrow until 9 o'clock tomorrow night, if you can swear you were prevented by sickness or absence from registering on the regular registration days. You must appear before the county clerk to do that.

Perhaps Congressman Barleson thought, if the government was willing to risk \$1,000,000 on the James-Exposition, there would be no greater risk of loss or depreciation, in lending money on cotton warehouse certificates. However, that zealous representative should recollect, that it was congress that authorized the exposition loan, not the treasury department.

This edifying incident, which was explained to me solely by sound, had scarcely come to an end when a noise of creaking boards drew my eyes to the other window. The shutter suddenly flew around, and a human figure swung in at the open casing.

"S-h-h!" came the warning whisper, and I recognized my supposed robber. It was Henry.

"Don't speak out loud," he said in suppressed tones. "Wait till I fasten this shutter."

"Shall I shut the window?" I asked, thoroughly impressed by his manner. "No, you'll make too much noise," he said, stripping off his coat and vest. "Here, change clothes with me. Quick! It's a case of life and death. I must be out of here in two minutes. Do as I say, now. Don't ask questions. I'll tell you about it in a day or two. No, just the coat and vest. Give me that collar and tie. Where's your hat?"

The changes were completed, or rather his were, and he stood looking as much like me as could be imagined.

"Don't stir from this room till I come back," he whispered. "You can dress in anything of mine you like. I'll be in before twelve, or send a messenger if I'm not coming. By-bye."

He was gone before I could say a word, and only an occasional creaking board told me of his progress down the stairs. He had evidently had some practice in getting about quietly. I could only wonder, as I closed and locked the door, whether it was the police or private enemy that he was trying to avoid.

I had small time to speculate on the possibilities, for outside the window I heard the single word, "Help!" I rushed to the window and looked out. A band of half a dozen men was struggling and pushing away from Montgomery Street into the darker end of the alley. They were nearly under the window.

"Give it to him," said a voice.

In an instant there came a scream of agony. Then a light showed and a tall, broad-shouldered figure leaped back.

"These aren't the papers," it hissed. "Curse you, you've got the wrong man!"

## ALL HALLOWE'EN.

Thursday is All Hallowe'en. Hallowe'en has been the great harvest festival ever since the first garden was plentiful. It was one of the three festivals celebrated by the druids, May 1, the planting; June 21, the ripening, and greatest of all, October 31, the harvesting. In the days of pagan Rome October 31 was the feast of Pomona, to the "an angel who guards the gardens" and it was but natural that God's harvesting should come to be observed at this time also, and this day devoted to the remembrance of the dear souls that God's hands had "gathered in." Also on this day the druids have renewed the sacred fires for the long winter to come. Then as fire is the preventive of two great evils, cold and hunger, it came in time to be thought of as preventing other evils also—the evils that lived in the air and sky—pixies and fairies, ghosts and goblins, so that even as late as the 17th century farmers made the rounds of their farms swinging fiery torches and singing solemn doggerel to prevent the uncanny ones from casting a spell upon the crops. Therefore, when we of today bring about jack-o'-lanterns, sit by the fire turning apples on a spit to weird rhymes, and roast nuts in pairs while listening to ghostly tales, we are uniting traditions of at least three religions and doing that in fun which was once a most solemn ceremony.

The moral to this is: The Sun's want ads are effective—they certainly are wide reaching.

President of Newport Gas Company Relieved on Train.

Washington, Oct. 29.—Secretary of the Treasury Cortelyou returned to Washington today from New York, where he went last week to superintend government measures for relief of the money market. His return did not end Mr. Cortelyou's work, for he had a long conference with President Roosevelt, to whom he outlined in more detail than was possible in long distance telephone conversations last week, the details of the situation.

Mr. Cortelyou naturally was much pleased at the commendation contained in President Roosevelt's letter to him, published this morning. He made no additional statement, however, regarding the situation in New York.

Washington, Oct. 29.—The police of this city received information that William H. Payne, of Richmond, Va., who is said to be president of the Newport News Gas company, the Newport News and Old Point Railways and Electric company, and connected with other large enterprises, while on his way from Washington to New York City this afternoon, was robbed of a leather grip containing \$14,000 in bonds and stock certificates. The robbery was committed while Mr. Payne was taking a nap in a Pullman in which he was riding.

He believes the person who stole the grip left the train at Wilmington, Del.

# CATARRH BLOOD UNHEALTHY SYSTEM DERANGED

The entire inner portion of the body is covered with mucous membrane; this membranous tissue is abundantly supplied with blood vessels, veins, arteriæ, and capillaries. Each of these is constantly supplying to this tissue, or lining, blood to nourish and strengthen it and keep the system healthy. When the blood becomes infected with catarrhal matter it is not able to furnish the required amount of healthful properties, but feeds the parts with impurities which disease the membranes and tissues so that they become irritated and inflamed, and Catarrh, with all its disagreeable and dangerous symptoms, is established in the system. There is a constant ringing in the ears, a thin, watery discharge from the nostrils, the breath has an offensive odor, slight fever often accompanies the disease, and gradually the entire health becomes affected and the system upset and deranged. In its earlier stages, when Catarrh is confined to the nose and throat, sprays, washes, inhalations, etc., are soothing and in a way beneficial, because they are cleanly and usually antiseptic, but such treatment has no curative effect, because it does not reach the blood. To cure Catarrh the blood must be purified, and this is just what S. S. S. does. It goes down into the circulation and attacks the disease at its foundation; it removes the cause and makes the blood pure and healthy. Then the blood vessels are filled with fresh, reinvigorated blood, which is carried to all the mucous surfaces and linings, the inflammation and irritation are corrected, the symptoms all disappear, the health is improved and Catarrh is permanently cured.

## GOV. BRADLEY SUMMARIZES

(Continued from First page.)

Act of 1904, page 60, which was continued in force until 1906, when it was decreased one-half cent (See Actas 1906).

Governor Bradley shows that the statement of Beckham that there was a deficit in the common school fund for the year 1900 of \$147,000 is untrue, but that there was then to the credit of that fund a balance of \$71,633.13. He also shows that the statement of Beckham that there was a deficit at the end of the school year June 30, 1901, is false, and that there

was then a balance in the school fund to its credit of \$112,799 (See page 166, Auditor Colter's report).

Fourth—Governor Bradley shows that instead of Mr. Beckham being for the school book bill that he advocated the passage of another which empowered him to appoint three commissioners, which was defeated,

It cleans the blood from all impurities and nourishes the blood. Just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

Eighth—As to the "jumbled figures," complained of by Beckham, Governor Bradley specifically sets forth the enormous increase of expenses under Beckham's administration at the Frankfort and Eddyville penitentiaries, the lunatic asylums, the feeble minded institutes, the deaf and dumb asylums, the active and regular militia, expenses of public offices, cost of criminal prosecutions, insurance department, board of equalization, amount paid assessors, cost of court of appeals, expenses, rewards, etc., which, he says, is shown by the auditor's reports, and offers to agree with Mr. Beckham to pay jointly the expense, in order to demonstrate who has told the truth about these matters, which offer Mr. Beckham has treated with contemptuous silence.

Ninth—Governor Bradley shows that the tax rate used by the Republicans to pay for all current expenses was 42½ cents on the one hundred dollars, only fifteen cents of which went for general expenses; (See Kentucky statutes, ed. 1894, page 91) and that they administered the state government on this sum, and according to Auditor Stone's report of 1900 they left in the treasury when they went out of power, \$1,000,000 which, with the other assets, was more than sufficient to have paid on the \$1,000,000 bonded indebtedness and left the state entirely out of debt, while Mr. Beckham on an increased tax rate of 2½ cents (see Acts 1902, page 282), and with an increase in the tax rate for general purposes of 6½ cents on the one hundred dollars for general expenses, with a largely increased valuation of property and an average of more than \$79,000,000 a year has left the state an indebtedness, according to Hager's books on the 30th day of June, 1907, of \$672,277.47 on unpaid appropriations for permanent improvements and a shortage in the general expenditure fund of \$476,117.89, borrowed from the sinking fund, thus making a total shortage in indebtedness of \$1,148,355.38. He also shows from Auditor Stone's report of 1900 that when the Republicans went into power there was a floating indebtedness of \$1,800,000 left by their predecessors, besides which there was a bonded indebtedness of \$674,000, notwithstanding the preceding administration had diverted from the sinking fund \$2,500,000, and had appropriated \$600,000 paid by the national government to the payment of general expenses (see Acts 1891-2-3, page 7). All this floating indebtedness had been paid off as shown by the report of Auditor Stone.

Governor Bradley charges that the Republicans did not increase the tax rate ten cents on the \$100, but that a Republican house and Democratic senate made this increase for the exclusive purpose of paying old debts of the preceding administration, which is shown by Acts 1897, page 12.

He also charges that the \$500,000 of bonds was issued under an act passed at the same session to pay old debts of preceding administration (page 9, Acts 1897) which is shown on the face of the Acts; that the ten-cent rate was by the Act to be reduced in three years to five cents (see same Acts), and that although the Republicans had administered the state government on forty-seven and a half cents from May, 1900, and the rate was raised to fifty cents on the \$100. He further charges that the \$1,000,000 of bonds, which Beckham claims to have paid, were issued entirely for Democratic debts—\$500,000 in 1885 and the other \$500,000 in 1897, and that when they were paid, Mr. Beckham was paying Democratic and not Republican debts.

Notwithstanding these serious charges, supported by reference to books and pages, Mr. Beckham, up to this good hour, has not denied any one of them and stands convicted by his silence.

MIX IT YOURSELF.

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood," prints in a recent issue the following: Fluid Extract of Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well and use in teaspoon doses after each meal and at bedtime.

A well known local druggist who is familiar with this prescription states that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleans the blood from all impurities and nourishes the blood. Just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary.

Sixth—Governor Bradley shows that the letter which Beckham read from him to Calhoun has been tampered with, and as now presented is a forgery. He also refers to the speeches of Hendricks, who charged that Beckham had concealed from the legislature the fact that he had made a contract with Calhoun for \$3,000, and enabled Calhoun to lobby a bill though paying him \$71,000 fees when Senator Blackburn had already reported to Beckham that the government was ready to pay the claim, before Calhoun was employed.

Seventh—Governor Bradley charges that in the election of 1902 Beckham's soldiers, under command of Judge Hargis, went to the Frozen

precinct in Breathitt county, took charge of the polls, and counted a majority of from 10 to 35 for the Democratic ticket, when the precinct was 100 Republican.

Eighth—As to the "jumbled figures," complained of by Beckham, Governor Bradley specifically sets forth the enormous increase of expenses under Beckham's administration at the Frankfort and Eddyville penitentiaries, the lunatic asylums, the feeble minded institutes, the deaf and dumb asylums, the active and regular militia, expenses of public offices, cost of criminal prosecutions, insurance department, board of equalization, amount paid assessors, cost of court of appeals, expenses, rewards, etc., which, he says, is shown by the auditor's reports, and offers to agree with Mr. Beckham to pay jointly the expense, in order to demonstrate who has told the truth about these matters, which offer Mr. Beckham has treated with contemptuous silence.

## DRIVEN OFF BY TAXATION

The manner in which the tax system of Kentucky may seriously affect its business interests was recently given a very striking demonstration in Lexington. The estate of Mrs. Clara Bell Walsh, amounting to about \$750,000, had been for many years managed by the Security Trust company of Lexington, as trustee. A petition was filed recently in the Fayette circuit court, asking the court to terminate the trusteeship, so that Mrs. Walsh might put her property in the hands of a trust company in St. Louis. The Security Trust company, which had been acting as trustee, did not oppose this suit, it being distinctly stated in the petition of Mrs. Walsh that the services of the trust company had been in every way satisfactory, but that the taxes imposed upon her property were too burdensome.

The peculiar feature of the case lies in the fact that Mrs. Walsh, herself, resides in St. Louis and, therefore, claims that her personal property should not be taxed at Lexington in the hands of her trustee. The court of appeals having held otherwise, and Mrs. Walsh, not feeling justified in paying a tax rate of \$2.70 on the stocks, bonds and other investments in the hands of the Kentucky trustee, since she could not derive any possible good from the payment of this tax, decided to remove the property to the state of her residence.

A considerable part of the estate was invested in local securities—the bonds of local corporations and real estate mortgages. This will mean that the money will gradually be withdrawn from investment in these local securities and reinvested by the St. Louis trustee in other securities, thus constituting a loss of that much money to enterprises in and around Lexington and Fayette county. It means just that much greater scarcity of needed capital.

The Lexington Herald has been, with great energy and skill, showing the result of this sort of taxation on the business interests of the state. It points out, among other things, the inconsistency in the decisions of our courts, which hold that a man who lives in one Kentucky county and has intangible personal property, such as stocks, bonds, or money, in the hands of a trustee in another county of Kentucky, must pay the tax in the county of his residence and not in the county where the trustee resides; but if the owner of the property moves entirely out of the state, then he must pay a tax in the county where the trustee resides, as well as pay the tax in the state where he takes up his new residence, thus constituting double taxation.

### Consumed With Taxation.

In her petition asking for the change in trusteeship Mrs. Walsh says: "Plaintiffs desire, if said Clara Bell, Walsh be not entitled to a discharge of the trustee, that there be a change in the person of said trustee, and if it can be done that the funds and property in trust be transferred to a trustee duly qualified under and resident in the state of Missouri, where they have their home. Plaintiffs state that the reasons why a change of trustee is desired do not in any manner relate to the conduct or fidelity of said trustee, but are on account of the heavy burdens of taxation imposed on said estate by reason of the residence of the trustee in a state and city different from the home of the beneficiary."

### Court of Appeals Decision.

The Herald adds the following fact as to the case. "Under this decision of the court, Mrs. Walsh's personal property in the hands of the Security Trust company would be liable for city, state and county taxes here; and realizing that she, a non-resident of the state, could derive no possible benefit from taxes paid to the city on her personal property, Mrs. Walsh takes this means of getting possession of her property. The removal of the estate to another state is a powerful argument against the wisdom of the system of taxation in force in Kentucky; for though the investments made by the trustee in local securities are so safe and highly regarded as to be retained, yet when a reinvestment is made it is likely that a large portion of the funds will be invested elsewhere, thus depriving this community and state of so much badly needed capital for its progress and development.

### Poverty or Parjury.

"A prominent attorney of this city, in discussing before the Taxation Committee of the Kentucky senate in 1905 the tax system of our state, denounced our personal property tax as necessarily leading either to poverty or parjury. We do not know whether any statistics on the subject are available, but we think it a safe guess that at least three-fourths of all the intangible personal property, such as bonds, notes, and cash, which is assessed for taxation in Kentucky, is in the hands of fiduciaries. Is it a fair and manly thing to place upon those least able to bear it nearly all the burden of such a tax?"

### Doctors' "Anti-Trust" Imitation.

## Cupid Traverses Oriental Seas.

(By United Press)

Washington, Oct. 29.—Another southern belle has demonstrated that to be seen is to be loved, and another northerner has proven that papa's and mama's consent isn't necessary so long as the girl is willing.

Miss Miller, daughter of Lieut. Col. T. E. Miller, of Alabama, chief quartermaster of the Philippine division, is now the wife of Julian Humphrey, Lieutenant of Philippine scouts, and son of Major General Charles F. Humphrey, U. S. retired. She took her new name recently at "The Little Church Around the Corner," in Manila, after a vain attempt on the part of her parents to separate her from her lover by taking her to the Philippines from Washington.

Lieutenant Humphrey and Miss Miller had known each other for years. They finally became so devoted that Lieut. Col. and Mrs. Miller became alarmed, believing that both were too young to marry. That simply convinced the lovers that they must marry. Late in the summer, Lieut. Col. Miller was ordered to the Philippines. Mrs. Miller doesn't care much for Manila, but this time she was anxious to go for it meant that she could thus take her daughter away from young Humphrey. How she felt when the first person she met on the transport sailing from San Francisco was Julian Humphrey in the uniform of a Lieutenant of scouts, she has not written to any one in the United States. Humphrey had learned of his sweetheart's intended voyage and had laid his own plans accordingly. It was a delightful voyage, those moonlight nights—for Miss Miller and Mr. Humphrey.

The ban was placed on Lieut. Humphrey when the party reached Manila, but a postoffice box, which he rented and to which Miss Miller was

given a key, proved a great assistance to Cupid.

Then for some unknown reason and through some unrevealed influence, Lieut. Humphrey was ordered from Manila to Mindanao, a province far to the south. Did he go alone? Half a dozen persons who gathered in the Methodist church to hear Rev. Isaac R. Harper pronounce the wedding ceremony a few hours later can answer that question—also the postmaster at Manila.

## LOVE AND TRUST

## GREATER GENEROSITY AMONG AMERICAN CHURCH MEN.

Less Bickering and Wrangling Than in England, Says Bishop of London.

London, Oct. 29.—The bishop of London pointed his sermon at the Church of the Holy Trinity Sunday with reference to what he saw in America, whence he arrived yesterday.

"There is far greater generosity, love and trust between different bodies of Christians and between schools of thought in the same church in America than here in England," said Dr. Ingram. "It was like going into another atmosphere to pass from wrangles of Great Britain into an atmosphere where they are unknown."

"I found that the bitterness which disgraces our church at home is unknown in the United States, although there are conscientious differences there. It was quite a shock, amid the love and harmony there, to take up the English newspapers and read reports of the church congress here and find that the eternal wrangling was going on today which had been going on for 50 years.

"It was a great lesson to be present at the general convention of the churches in the United States; highly instructive to see a millionaire from Wall street sitting side by side with a workingman, both representing New York. It was true Democracy."

## FERDINAND IV REPORTED DYING

Is Grand Duke of Tuscany—Escapes from Two Eldest Children.

Vienna, Oct. 29.—It is reported from Salzburg, Austria, the Archduke Ferdinand IV, grand duke of Tuscany, aged 72, is dying.

In later years the archduke has been embittered by the conduct of his two eldest children, ex-crown princess of Saxony, whose escapades for several years as Countess Montenegro made her notorious, and who recently married Enrico Toselli, an Italian piano player, and former arch Archduke Leopold, now known as Leopold Woelffel, who gave up his position at the Austrian court to marry a Vienna actress, and who, after a divorce was married in Switzerland to a daughter of a horse dealer.

## RESORT TO CANNIBALISM.

Says Angelican Missionary to Ungava Bay—Severe Cold Cause.

St. Johns, N. F., Oct. 29.—Cannibalism has been resorted to by the Eskimos in the Ungava Bay district, and on the shores of Hudson Strait, according to Rev. Stewart, an Anglican missionary to the Ungava Bay Eskimos.

Rev. Stewart states that owing to the severely cold weather and unusual scarcity of game, many natives in the remote regions have perished from starvation and exhaustion and the survivors have been forced to cannibalism to sustain life.

Recently a crew of a New Foundland vessel which was in Ungava Bay discovered thirty skeletons lying buried on the beach. It is supposed that these were remains of some of the victims of the famine.
